Applicant's election without traverse of the species of treating ulcers in Paper No. 4 is acknowledged. Claims 1, 2, 7-15 are being examined. Claims 3-6 are withdrawn as not reading on the elected species.

Claims 1-2, 7-15 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for a composition of matter comprising hydroxylansoprazole, does not reasonably provide enablement for a method of treating ulcers using hydroxylansoprazole. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to use the invention commensurate in scope with these claims. Inatomi (CA115:21996) discloses that hydroxylansoprazole does not inhibit acid formation in parietal cells and applicant has presented no data that shows that it is effective to treat ulcers.
